Webmaster Emeritus:
Dave LUNDY, †4/13/20

ESTABLISHED IN 1976, DMA is a group of Dayton-area professionals and enthusiasts in the field of computing and digital information technology. General Membership Meetings are usually held on the last Tuesday of each month. DMA has a number of Special Interest Groups (SIGs) in areas ranging from digital investing and genealogy to the Linux operating system. Each SIG meets according to its own schedule. DMA is a member of the Association of Personal Computer Users' Groups (APCUG) and the Affiliated Societies' Council (ASC). Click on any of the logos—including our own (top left)—to go to that organization's Web site.

Submissions ...

THE DATABUS welcomes compliments, complaints, suggestions, and especially articles. We can accept articles in ASCII, or as attachments in plain text, Microsoft Word, Open or Libre Office Writer, or, yes, even in WordStar (a word-processing program that goes back to about 1980!). Send articles to:

Editor@DMA1.org

All articles are subject to editing for spelling, grammar, usage, and space. Retain a copy of your work, as THE DATABUS cannot be responsible for loss. When articles are of roughly equal quality and importance, those by paid-up DMA members receive preference.

ALL REGISTERED TRADEMARKS, for example: the DMA Arrow, APCUG, Chrome, WordFence, YouTube, or ZOOM, are the property of their respective owners. However, the Registered Trade Mark symbols (® or ™) have been omitted for better readability. The Editor occasionally inserts comments into articles. Such comments are sometimes preceded by the phrase: "EDITOR'S NOTE," are often in square brackets [like these], and are always in sans-serif type, like these paragraphs.

THE DATABUS is written and published by volunteers. We do not give professional advice on hardware, software, or network installation, repair, security, or troubleshooting. If you need expert assistance or repair for your digital device or network, please seek the advice or services of a qualified professional.

July Meeting: 7:00 P.M., Tuesday, the 26TH
No Driving—No Charge*

* This is a “hybrid” meeting: via ZOOM, but also in person. Come at 6 P.M. if you wish to join us in person for dinner at T. J. Chump’s Restaurant in suburban Huber Heights, next door to the Meijer’s Supermarket. Click *here* for a map. The restaurant has free parking. It is also accessible via RTA bus routes 18 and 19, but there is a short walk from the bus stop in the Meijer’s department store parking lot to the restaurant. *Guests are welcome — bring a friend!*

Gary COY
STREAMING SERVICES SIMPLIFIED

LET’S BE HONEST: I stream ... you stream ... we *all* stream. We don’t talk about it, but we all do it. We stream our media: our music, our videos, TV, podcasts, on-line gaming, even our news.

According to streamingmediaglobal.com, “Streaming media is the simultaneous transfer of digital media (video, voice and data) so that it is received as a continuous real-time stream. Streamed data are transmitted by a server application and received and displayed in real-time by client applications. These applications can start displaying video or playing back audio as soon as enough data has been received and stored in the receiving station’s buffer.”

Many streaming services require a subscription, but many others are free. These services are forever upgrading, fighting to better their competition. There are enough choices to make your head spin.

Gary will talk about what options are available today and how best to choose among them.

GARY COY is the current President of DMA, a Trustee and a frequent presenter. He is also VP of the NASAC users’ group. Gary has over 20 years’ experience in the electronic and computer industry. He currently works for the Speedway Corporation as a customer service claims specialist. Gary serves as a volunteer and part-time EMT. He offers computer tech support through his own company, “Gary’s Computers” (see advertisement, page 7). ... TDB

**Nominations for the DMA
Board of Trustees are now
open!**

Trustees serve for three years, and must have been dues-paying DMA members for at least one year. Consider nominating yourself.

**Contact any Trustee or officer
if interested.**

Minutes are normally published almost two months late, because the Minutes for, say, the June Board meeting must be approved by the Trustees at the *following month's* meeting — in this case, early July. The corrected and approved June Minutes would thus appear in the July DATABUS (this issue), published toward the end of the month.

Trustees' meetings are usually on the *first Monday of each month*, except when that day is a legal holiday, for example: Labor Day in September. During the epidemic, Trustees began meeting via ZOOM. This was so successful that they decided to continue the practice indefinitely. Meetings begin at 7 P.M. and are open to all DMA members. Request ZOOM credentials (that's a fancy way of saying "an invitation") from Secretary GLADY CAMPION at Tuesday's General Membership meeting.

—MINUTES— DMA Board of Trustees Meeting of Monday, June 6, 2022

CALL TO ORDER

The meeting was called to order at 7:17 P.M. by Edwin Davidson, via ZOOM.

Trustees present: Gladly Campion, Edwin Davidson, Peter Hess, Chester Howes, Ken Phelps, Ed Skuya, Dave Schwab, and Gary Turner. **Excused:** Gary Coy. **Guests:** Mark Camden, Pat Flynn, Stephen Frey, Gary Ganger, and Mike Stock.

OFFICERS' REPORTS

President – Gary Coy

No report

Vice President – Edwin Davidson

No report

Secretary – Pat Flynn, Gladly Campion

Gladly presented minutes for the May board meeting. Peter Hess moved the minutes be accepted. Gary Turner seconded and the motion passed with Gladly abstaining.

Treasurer – Gladly Campion, Pat Flynn

Pat presented a report for May.

COMMITTEE REPORTS

Audit – Gladly Campion

In progress

Computer Museum – Peter Hess

Gladly emailed a copy of the lease agreement to all trustees. She recommended it be reviewed by a lawyer from McNamee & McNamee in Beavercreek because of their real estate experience.

Peter Hess moved that up to \$300 be allocated for legal fees for a review of the lease. Dave Schwab seconded and the motion passed with Edwin Davidson abstaining.

Gary Ganger, Stephen Frey, Peter Hess, and Gladly agreed that the Computer Museum committee would meet regularly via ZOOM on third Wednesdays, beginning June 15.

Mark Camden informed the board that Jesse Cross, from Dayton Diode, is interested in

(Continued on page 5)

—Notice—

Because of confidentiality concerns (for example, anyone could readily discover in what financial institutions DMA holds its assets), Treasurer's Reports are not published. However, the current Treasurer's Report is available to any DMA member on request.

(JUNE MINUTES—Continued from page 4)

helping with the Computer Museum.

Fundraising – Peter Hess

In progress

Marketing – Peter Hess, Edwin Davidson, Pat Flynn, Debra McFall, Catherine Devlin

Peter has been placing sign holders at local computer shops, each displaying a DMA flier and a number of DMA business cards.

Membership – Gladly Campion

At the current time, we have 43 Regular, 4 Associate, 0 Student, and 5 Lifetime members for a total of 52. Attendance for April was 24, with 15 in person at TJ Chumps.

Door Prizes: Gary Coy chose the Amazon Echo Dot. Mike Stock won the Roku Premier. Tony Snyder grabbed the WD Caviar SE16 500GB SATA hard drive from the Dave Lundy collection. Pat Flynn selected the Portable Apps flash drive configured and donated by Gary Coy.

Net Admin Team – Ken Phelps, Gary Turner, Pat Flynn, Brent Kerlin, Mark Camden

No problems reported. Mark Camden worked with one of our newest members on how to access his shell account and how to upload files.

Mark continues to update and maintain our website, DMA1.org.

Programs – OPEN!

Thank you to both our May presenters, Edwin Davidson for talking about concerns when uploading videos to YouTube, and Gary Coy for explaining the benefits of using Portable Apps.

Program for June - Gary Turner will talk about RISC-V processors. Mark Camden will explain how to work with DMA shell accounts.

Suggestions for future meetings:

The Tarnished Side of Cryptocurrency; Fiber Internet; Touchless security from Evolv Technology and how they spot threats such as concealed weapons using digital sensors.

Also suggested were Installing Linux on a Google Chromebook, or running Linux on the Windows subsystem for Linux (WSL), or installing Windows on a Linux Virtual Machine.

Publications – Martin Arbagi

THE DATABUS for May was posted.

UNFINISHED BUSINESS

Wright State Archives – Martin Arbagi, Gladly Campion

Still in progress.

Next Board Meeting

Next Board Meeting will be 7:00 P.M. on Monday, July 11, 2022. We will continue to use ZOOM.

List of DMA accounts – Gladly Campion

Still in progress.

NEW BUSINESS

Summer Picnic – Gladly Campion

Shellabarger Park in Riverside has been reserved for Saturday, August 27. DMA will provide Brats, Mets, Dogs, Burgers, beverages, and door prizes. Electricity and Internet will be available. Tickets are again \$5. Attendees are asked to bring a covered dish to share. Tickets will be available from Gladly at DMA meetings or by e-mailing membership@DMA1.org.

(Continued on page 6)

(JUNE MINUTES—Continued from page 5)

ADJOURNMENT

Peter Hess moved to adjourn at 8:50 P.M. Ed Skuya seconded and the motion passed with no one abstaining.

*Respectfully Submitted,
Glady Champion,
... Secretary*

—2022 DMA Picnic!—

- ⇒ **\$5 each — see GLADY CAMPION or e-mail membership@DMAI.org for tickets**
- ⇒ **Saturday, 27 August 2022, Noon ... ? (food served at 1 P.M.)**
- ⇒ **DMA supplies brats, hot dogs, hamburgers, & soft drinks; you bring a covered dish**
- ⇒ **Shellabarger Park in beautiful suburban Riverside (click *here* for a map)**

—The DMA YouTube Channel—

By Mark CAMDEN, DMA Webmaster

Did you know that DMA has a YouTube channel (videos)? The DMA YouTube Channel can be accessed from the <https://www.dma1.org/> Web site in the footer (bottom of every page) by selecting the YouTube icon.

Once you get to the DMA YouTube, you will see the following five (5) tabs:

Home
Videos
Playlists
Channels
About

There is also a red **“Subscribe”** button. If you subscribe, you will get notification when a video is added to the DMA YouTube Channel. You will need to be logged into your Google Account or it will prompt you to log in before you subscribe.

The **“Home”** tab is the home page for the DMA YouTube Channel and displays the latest DMA videos. These are sorted by date, so you must scroll to the oldest ones.

The **“Videos”** tab displays all DMA videos.

The **“Playlist”** tab displays folders where the videos are grouped by subject. We have the following Playlists:

- Members’ Videos (non-DMA videos)
- APCUG Videos (non-DMA videos)
- Resources (DMA videos)
- “How to” Videos (DMA videos)
- DMA General Membership Meetings (DMA videos)

As shown above, not all videos under the playlist are DMA videos. The Members’ Videos and APCUG Videos playlist are videos from other YouTube sites that are saved (linked) on the playlist.

If you have your own YouTube channel with videos related to computers or other digital devices, or to programming such equipment, please let us know and we can add the video to the Members’ Videos playlist.

The **“Channels”** tab is not currently being used.

The **“About”** displays DMA Web site links.

by Gladys CAMPION

Microsoft Explorer is now "Gone for Good."

Microsoft ended support for Internet Explorer on June 15, putting its aging Web browser out to pasture after nearly 27 years. A South Korean software engineer marked the moment by spending ₩30,000 (\$330) on a headstone emblazoned with Internet Explorer's stylized "e" logo and a cheeky engraving, Reuters reported. "He was a good tool to download other browsers," reads the inscription on the fake headstone, referring to the joke that people only used the dated Internet Explorer to install more modern ones like Google Chrome.

Microsoft said Internet Explorer was being retired in favor of Microsoft Edge.

Cnet.com

Adobe plans to make Photoshop on the Web free for everyone.

Adobe has started testing a free-to-use version of Photoshop on the web and plans to open the service up to everyone as a way to introduce more users to the app. The company is now testing the free version in Canada. Adobe describes the service as "freemium," reserving some features for paying subscribers. There's no word yet when the freemium version would be available in the US.

Adobe previewed a new AI-powered Neural Filter this month that's coming to Photoshop proper. The new "photo restoration" filter can take a beaten-up yellowed photo and automatically clean up scratches and restore some of its color. When combined with Adobe's existing colorize filter for adding color to black-and-white photos, the two filters can quickly bring an old photo to life, even if the end result looks a bit cartoony.

Amazon Prime Day

Get ready! The date has been confirmed for July 12 & 13. Prime Day will be a 48-hour event for shoppers. Not to be outdone, Target stores announced that its annual Target Deal Days will be back for a fourth year, from July 11-13, offering three days of deals and without a membership fee. BUT WAIT, THERE'S MORE! Amazon just announced it may be hosting a second Prime Day-like shopping

(Continued on page 10)

(HAVE YOU HEARD?—Continued from page 9)

event during the fourth quarter of 2022. There are few details available and no date announced yet.

Firefox offers “Total Cookie Protection.”

The latest feature from Mozilla extends the anti-tracking protections of its browser even further. The design change, labeled “Total Cookie Protection,” aims to give enhanced protection against online tracking by limiting the ability of Web sites to read cookies created by third-party services. According to a Mozilla, access to any given cookie will be restricted to the Web site that *deposited* the cookie in a user’s browser, so a cookie created by one Web site or service will not be readable by other Web sites that a user visits. Mozilla describes the new feature as a separate “cookie jar” for each Web site, preventing trackers from linking up user behavior across many sites.

Floppotron 3.0

This PC hardware “orchestra” is built from 512 floppy disk drives, 16 hard drives, and four scanners. It plays music using the connected equipment. This “orchestra” is the work of Polish engineer Paweł Zadrożniak, who’s been building various iterations of the instrument since 2011. The concept is simple. It takes advantage of sounds produced by electric motors. Adjust how fast and how hard to run the motor and you can produce specific notes. Combine those notes carefully, and you can make music. The floppy drives handle the low notes, the scanner section provides the higher pitches, and the hard disk drives act as the percussion section.

How to Spot Fake Product Reviews on Amazon’s Web Site

Nicole Nguyen, one of the writers who have replaced the legendary Walter Mossberg as *The Wall Street Journal’s* Personal Technology columnists, had some tips in the 21 July issue about spotting fake reviews on Amazon’s Web site. First, scroll to the bottom of the “Review” section of a particular product, where you’ll find you can sort reviews using various criteria. After that ...

- ✓ **Avoid products that have only 5-star reviews.**
- ✓ **Read the 1-star reviews first.**
- ✓ **Then sort for the most recent reviews.**
- ✓ **Actually *read* reviews and check their dates.** Reviews dated before a product was actually released for sale are suspicious.
- ✓ **Beware of reviews that include media other than text, for example, photographs, videos, etc.** One photo is OK, but many photographs or elaborate videos of a simple product are suspect.
- ✓ **Search for “red flags,”** such as reviewers who mention they received financial incentives like gift certificates or free products in exchange for their reviews.
- ✓ **Checked for “merged” reviews. Fake reviewers will often insert one review for many products.** A book review when you expected one of a garden hose is probably fake.

Have a business card? Are you a DMA member?

ANY PAID-UP MEMBER of the Dayton Microcomputer Association is entitled to a *free* business card-sized advertisement in THE DATABUS. Send a good-quality image (600 dpi or better) to Editor@DMA1.org, or give your business card to **Martin Arbagi**, the Editor, at any DMA meeting. We can embed a link to your Web site (if you have one) within the image of your card. Under weird IRS regulations, your Web site may not include discount coupons for DMA members, although discount offers may be included in the advertisement *itself*.

Help DMA by using Amazon's SMILE program!

AMAZON, the Internet's largest retailer (if you haven't noticed, Amazon isn't just for books any more) has a "Smile" feature whereby Amazon donates a percentage of almost any purchase you make to a nonprofit organization that you select. There is *no* extra cost to you. Click [here](#) to learn more or [here](#) to go directly to the sign-up page. Be sure to put DMA down as the beneficiary of your purchases.

HISTORY OF THE DAYTON MICROCOMPUTER ASSOCIATION, Inc. (DMA)

By PETER HESS, DMA President, 2018-2020

ABOUT FORTY-SIX YEARS AGO, a small group of computer enthusiasts from the Dayton, Ohio area gathered around a kitchen table looking at, and playing with, an early personal computer called the Altair 680 that one of them had purchased. This computer had been featured earlier on the

cover of the January 1975 issue of *Popular Electronics* magazine. Paul Allen had shown the selfsame article about the Altair to Bill Gates, and later, they wrote software together for that computer. Still later—and still together—Allen and Gates founded the Microsoft Corporation.

Shortly thereafter, those Dayton-area computer enthusiasts joined with many others to form THE DAYTON MICROCOMPUTER ASSOCIATION (DMA), now one of the oldest (if not *the* oldest) continuously operating computer user groups in the world. Typically, computer user groups, and the newer iteration, technology user groups, are volunteer-run operations. The DMA is an all-volunteer led, organized, and run 501(c)(3) non-profit organization.

Now, there are hundreds of computer (or technology) user groups in the world, all of which continue to foster improved communication between technological equipment and software publishers, and users of their products. User groups (both computer and technology) provide an environment where more experienced technology users introduce additional and advanced techniques to novices.

DMA offers both monthly General Membership Meetings, which cover new and innovative topics including a wide range of generic technological matters, and its Special Interest Groups (SIGs) which address concerns about specific technology interests. There are eight different SIGs sponsored by the DMA, covering such topics as the Linux operating system, various programming languages such as Python, the use of technology to investigate genealogy, and digital aids to investing. Neither SIG members nor attendees at DMA General Meetings need be members of the parent organization, though they are encouraged to join so DMA can continue providing its services to the public.

Annual dues for DMA membership, which have not been raised for decades, are \$25 for Regular Members, and \$12.50 for Family or Associate Members (someone living at the same address as a Regular Member). Nonvoting Student Memberships are *free* to students through age 22. Door prizes at General Meetings, picnics, banquets, and other DMA events, and both product and service discounts are available to all DMA members.
